- Team Leadership

- Quick Learner
- Microsoft Word, Powerpoint and Excel
- Fine descriptive writing skill (essay, report etc)
- Multi Tasking
- Strong Planning and Critical thinking skills
- Excellent communicator
- Multi linguistic
- Pressure handling

PROJECTS

- **Messenger App with Firebase**

I have cloned “WHATSAPP” in android up to great extent. I built one messenger app in android in java. I have made the exact same UI of whatsapp in my messenger app. Even I have got core functionality of messenger app with the use of firebase, as a result, we can make live chat. Moreover, we can share pictures or photos using this app. Furthermore, UI and the animations in this app is very cool. I have checked its functionality and performance by installing it on various android platforms. This project is available on my GitHub repository.

GitHub URL : <https://github.com/Vruditdp>

- **Portfolio in React**

I have built my static portfolio in **react js**. This portfolio is mobilefriendly,too. This project is live on GitHub pages at <https://vruditdp.github.io/portfolio/>

ACHIEVEMENTS

- Elected as a team leader for 2 years (4 semesters) in subject named as “**DESIGN ENGINEERING**” during academics. My team had other 4 members from my classmates.
- Selected as a “**SCHOOL CAPTAIN**” during the high school.

CO-CURRICULAR INVOLVMENT

- Volunteered at **I & P Education Hub (Ahmedabad)** by giving training to the IELTS candidates, Specially in speaking module. (Duration : 1 month)
- Participated in college’s sports team and won several tournaments.
- Fond of watching various sorts of documentries and TED talks.
