Pursuing my B.E. in **Computer Engineering** at Gujarat Technological University. My favourite horizon is **Machine Learning**. I am acquainted with various ML libraries and core concepts. I also possess keen interest in **Data Science**.

EDUCATION

BACHELOR OF ENGINEERING IN COMPUTER ENGINEERING

JULY 2018-PRESENT-JUNE 2022

AT SHREE SWAMINARAYAN INSTITUTE OF TECHNOLOGY(SSIT) AFFILIATED TO GUJARAT TECHNOLOGICAL UNIVERSITY(GTU), AHMEDABAD.

GRADUATION YEAR : 2022

HIGHER SECONDARY SCHOOL (JULY 2016-MARCH 2018)

SAHJANAND SCHOOL OF ACHIEVERS (SSOA), SARGASAN, GANDHINAGAR.

GRADE HISTORY :

DEGREE / SCHOOLING	CURRENT CGPA / PERCENTILE RANK
B.E. COMPUTER ENGINEERING	CGPA : 9.11
HSC	PR : 81.31
SSC	PR : 97.53

TECHNICAL SKILLS

- Programming languages : C, Java, Python
- Core knowledge of ML and Data Science
- Familiar with different libraries : Tensorflow, Keras, Sklearn, Pandas etc
- Android (Java)
- Web Development (Django, React)
- HTML, CSS, JS

OTHER CRUCIAL SKILLS

- Team Leadership
- Quick Learner
- Microsoft Word, Powerpoint and Excel
- Fine descriptive writing skill (essay, report etc)
- Multi Tasking
- Strong Planning and Critical thinking skills
- Excellent communicator
- Multi linguistic
- Pressure handling

PROJECTS

- All these projects are available at <https://github.com/Vruditdp>

- **Salary Estimation using Data Science**

I have built one data science project to estimate salary of given job by considering various aspects of that job. I completed this project by following data science life cycle including project planning, data collection, data cleaning, exploration data analysis(EDA), model building and model production. I developed web scraping script in python using Selenium library for data collection that scrapes the data from website and store it in CSV file.

- **Messenger App with Firebase**

I have built a messenger app in android identical to “WHATSAPP” in terms of core functionalities and UI. I used java for coding. As I have implemented “Firebase” connection, we can chat with our friends in real time or live. Photos can be sent through this app. I have checked its functionality and performance by installing it on various android platforms.

- **Portfolio in React**

I have built my static portfolio in **react js**. This portfolio is mobilefriendly,too. This project is live on GitHub pages at <https://vruditdp.github.io/portfolio/>

ACHIEVEMENTS

- Elected as a team leader for 2 years (4 semesters) in subject named as “**DESIGN ENGINEERING**” during academics. My team had other 4 members from my classmates.

- Selected as a “**SCHOOL CAPTAIN**” during the high school.
- Won many awards and prizes from society and school by getting good grades during schooling.

CO-CURRICULAR INVOLVMENT

- Participated in college’s sports team and won several tournaments.
- Fond of watching various sorts of documentries and TED talks.
- Member of event management group of my society (Kalarav Residency). This group organize events on various indian festivals like navratri, janmashtami, ganesh chaturthi and many more.
